

OptoUSB™ Cable

USB 3.1 Gen 2 (10 Gbps) Type-A Cable

Cosemi's OptoUSB™ cables support 10 Gbps data transfer and up on a single cable. Utilizing fiber optics, these cables address the growing need for bandwidth with plug-and-play links to existing electrical connectors that scale greater distances than previously possible over copper links. Supporting the latest USB 3.1 Gen 2 standards, Cosemi OptoUSB cables are ideal for AR/VR, cameras for conference rooms and machine vision, storage, and other computer peripherals.

FEATURES

- High-Speed Fiber Optics
- Male to Female
- Male to Male
- 10 Gbps data transfer
- EMI/RFI resistant

APPLICATIONS

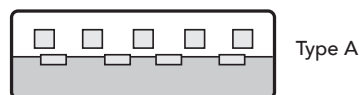

- Cameras
- Computers
- Tablets
- Smartphones
