Cosemi Brings Fiber Optic Connectivity to the Masses, Offers Active Optical Cables on Amazon

Availability on World's Largest Internet Retailer Shifts Mission to Enable Optical Connectivity Everywhere into High Gear

IRVINE, Calif., December 18, 2018 – Home entertainment is about to realize its full potential. [Cosemi Technologies Inc.](#), a global leader in innovative, high-speed connectivity solutions, today announced that its [HDMI](#) active optical cables (AOCs) are now available on Amazon. On a mission to bring the high bandwidth, faster speeds, longer distances, security, and reliability of fiber optics to the masses, Cosemi is making its best-in-class AOCs available to the 300 million people around the world who shop at Amazon.com – at a price they can afford.

“At Cosemi we’re all about making the home entertainment experience complete, and delivering life in ultra high-def,” said Adrian Collins, director of product marketing at Cosemi. “Our cables provide easy-to-use, lightning-fast, flexible, powerful connections that improve the home entertainment experience and deliver on the promise of 4K and beyond.”

As pioneers of the optical chips that have supported some of the world’s biggest technology companies, Cosemi is ideally suited to bring the technology once reserved for the datacom and telecom markets to consumers. Cosemi’s AOCs can easily handle the bandwidth needed for full 4K transmission from the source, bringing the clearest, most intense images possible to the newest 4K 60 HDR gaming consoles, home theaters, set-top boxes, and more.

-more-

What's more, Cosemi's cables are thin and highly flexible – they can be plugged in across the room if needed – and are easily portable thanks to their plug-and-play set-up and light weight.

Available in lengths from 5 to 50 meters, Cosemi's HDMI cables can be purchased from Amazon: <http://bit.ly/AmazonCosemiHDMI>. USB cables will be added to the Amazon store in early 2019. To learn more about Cosemi, please visit www.cosemi.com.

About Cosemi Technologies

A global leader in innovative high-speed connectivity solutions, Cosemi Technologies Inc. is focused on enabling optical connectivity everywhere. Cosemi designs and manufactures active optical cables for infrastructures supporting today's unprecedented data growth. The company offers a comprehensive portfolio of quality solutions that service the data center, home entertainment and consumer electronics markets.
