CONFLICT MINERALS POLICY STATEMENT

Cosemi supports and respects the protection of human rights for all, including the basic human rights of employees and workers. We are committed to sourcing components and materials from suppliers that share our values regarding respect for human rights, integrity, and environmental responsibility and that comply with all applicable legal standards and requirements.

On August 22, 2012, the U.S. Securities and Exchange Commission issued the final conflict minerals rule under Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Conflict Minerals Rule"). The Conflict Minerals Rule requires publicly traded companies to report annually the presence in its products of conflict minerals (Tin, Tungsten, Tantalum and Gold, or "3TG") originating in the Democratic Republic of the Congo or adjoining countries.

Cosemi Policy

Cosemi is committed to complying with any applicable requirements under the Conflict Minerals Rule. As Cosemi does not source conflict minerals directly from mines, smelters, or refiners and, in most cases, is several levels removed from companies that do, we require the cooperation of our suppliers in the implementation of this policy and in enabling us to timely meet our obligations under the Conflict Minerals Rule.

Cosemi endeavors to work cooperatively with our customers and supply chain partners to assist them in implementing their own conflict minerals programs. In the event Cosemi determines that a supplier has failed to develop and implement reasonable steps to comply with this Policy, Cosemi reserves the right to take appropriate actions, which may include discontinuing the business relationship with the supplier.

Inquiries

Cosemi is committed to taking all necessary steps to ensure our products comply with the Conflict Minerals Rule requirements. Should you have any questions regarding the content of this policy statement or any related issues, please contact Cosemi's Environmental Compliance Department.
